Drucktisch 2000

The manual screen printing system, model Drucktisch 2000 most effectively operates in production environments, that require normal output of hand operated devices. **Drucktisch 2000** is an accurate device for screen printing any materials from thinnest to 2.3" thick material that even can exceed the actual vacuum printing table.

This field proven screen printing vacuum printing table shall be delivered with all necessary motors and controls and includes the following as standard equipment:

- **Adjustable screen mounting device to accommodate different frame size (= the field proven system "Tischschwinge model S"**
- **Off-contact adjustment for material thickness of up to 2.3"**
- **Fully integrated vacuum system**
- **Multi-component resin coated and "hammerfest" vacuum printing table top for flat and smooth print surface**
- **Chemical resistant coated tabletop for ease of maintenance**
- **Clam Shell Frame Lift**
